

# FIELD SERVICE

NRE Field Service Division offers 24 hour Emergency Service, FRA Inspections, on-site commissioning, consulting services, technical support and a full range of customized maintenance and repair services, including wheel truing, engine changes and microprocessor installations. NRE can also complete the FRA requirements for the periodical inspections for your locomotives. The locomotives can be sent to one of the NRE shops or our field service team can perform the inspections onsite. We can perform the inspection to your requirements or choose the NRE inspection which can include:

- + Wheel report
- + Brake shoe check
- + Piston travel
- + Handbrake check
- + Lights
- + Run checks
- + FRA compliance
- + Change oil filters
- + Change air filters
- + Check for fluid leaks
- + Check fluid levels
- + Change air brake equipment
