CUSTOMER & SUPPLIER COVID-19 UPDATE

Valued NRE Customers and Suppliers,

For 40 years, National Railway Equipment Co. (NRE) has always made it a priority to keep its employees safe and healthy, to deliver quality products and services to our customers. As we respond to the developing Coronavirus (COVID-19) situation, these remain our priorities.

To achieve these goals with the current challenges, NRE has established a COVID-19 Task Force. The Task Force is continually monitoring the rapidly changing situation and will communicate updates as necessary. NRE will continue preparing contingency plans; monitoring material / supplies and production, ensuring we have adequate material, appropriate staffing and a safe and effective work environment. The Task Force will continue to implement CDC guidelines to limit the potential spread of the COVID-19.

In these uncertain times we are asking kindly that all non-critical contractors, suppliers and other visitors refrain from visiting NRE facilities. Please continue to conduct business with NRE via phone or email.

NRE is continuing normal operations until further notice. At this time, we do not have a shortage of labor or materials, and no shortages are forecasted in the near term. As this situation develops, we will keep our customers and suppliers current on all changes as they occur.

We urge you to keep NRE informed of your needs and challenges. We will all benefit from open communications. We are confident we will get through this by working together.

Thank you for your cooperation through this difficult time. NRE will keep you updated as we continue to deliver quality products and services. We wish good health to you, your employees and your families.

Thank you

A handwritten signature in blue ink, appearing to read 'S. Beal', is written over the 'Thank you' text.

Steven Beal
NRE CEO
